

## INST733 – Database Design

### Final Project Submission – See Canvas for the deadline

#### Submission Requirements

*Ensure that you fully understand the submission instructions; if you have any questions please ask the instructor as soon as possible. Your team will lose points if you do not follow all of these instructions.*

The report and all supporting deliverables/files are due **by the time and the date stated on Canvas. Due to being too close to the end of the grading window, NO LATE SUBMISSION IS ALLOWED ON THIS PART OF THE PROJECT. The submissions will close at the time of the deadline.**

The report must be submitted through the appropriate link on Canvas. Please do not email your report to the instructor. Email submissions will not be accepted. If you encounter problems finding or using the link, contact the instructor right away.

**Each team must make only one submission.**

Once you are done with all of the parts of your project including the report, name your files according to the following scheme:

team\_yourTeamNumber\_yourDatabaseName\_submissionLabel.fileExtension OR  
team\_yourTeamName\_yourDatabaseName\_submissionLabel.fileExtension

There are four pieces to your submission:

1. Submit your ERD as a workbench .mwb file,
2. Submit a backup of your database, (including: tables, sample data, views, create statements) as an .sql file,
3. Submit your queries in a .txt file, (the queries in a text file, in addition to including the views in your database in the backup file above),
4. Submit your written report as a .docx or .pdf file

For example:

- |                                 |    |                                     |
|---------------------------------|----|-------------------------------------|
| 1. team_12_media_db_ERD.mwb     | OR | team_fantastic_media_db_ERD.mwb     |
| 2. team_12_media_db_backup.sql  | OR | team_fantastic_media_db_backup.sql  |
| 3. team_12_media_db_queries.txt | OR | team_fantastic_media_db_queries.txt |
| 4. team_12_media_db_report.docx | OR | team_fantastic_media_db_report.docx |
